RE: WC Docket No. 13-5 Technology Transitions Policy Task Force Seeks Comment on Potential Trials

Dear Ms. Dortch:

On August 15, 2013, Daniel Berninger, founder, Voice Communication Exchange Committee (VCXC), met with Henning Schulzrinne, CTO. Hank Hultquist, VP, Federal Regulatory, AT&T also attended the meeting.

The meeting addressed VCXC work to convene a commercial IP transition trial limited to advanced services. VCXC advocates for the HD transition and deploying advanced services as the means of making the IP transition an unambiguous upgrade of communication networks. Advance services include HD voice and other service innovations addressing communication needs beyond plain-old-telephone-service. The advanced services category includes new SIP based open standard Video Relay Service, HD voice enabled Next Generation 911, and implementations of HD voice in the context of wireless Voice over LTE (Long Term Evolution). The trial plan includes provisions for exploring numbering/addressing innovations.

The open enrollment period for the Advanced Services Trial ends September 30, 2013.

In accordance with Section 1.1206(b) of the Commission's rules, this letter is being filed with your office. If you have any further questions, please contact me at (202)250-3838.

Respectfully submitted,

/s/ Daniel Berninger
Founder
VCXC

cc: Henning Schultzrinne
